

## Graduate Employment Outcomes (Alberta Graduate Outcomes Survey Class of 2014)

The province of Alberta administers a Graduate Outcomes Survey biennially. Of the 1,718 AU students who graduated in 2013-14, 818 responded (47.6%).

At the time of the survey (two years after graduation) 92.5% of the graduates were employed. This compares with 88.4% for graduates of Alberta public post-secondary institutions.

Most AU graduates also stated that their main job is very related to the program from which they graduated (61.3%), including the subject area knowledge they acquired (62.9%) and the general skills and abilities they acquired (72.6%)
